

# MAKING A NEW BOLTON WOODS

## NEW LOCAL CENTRE

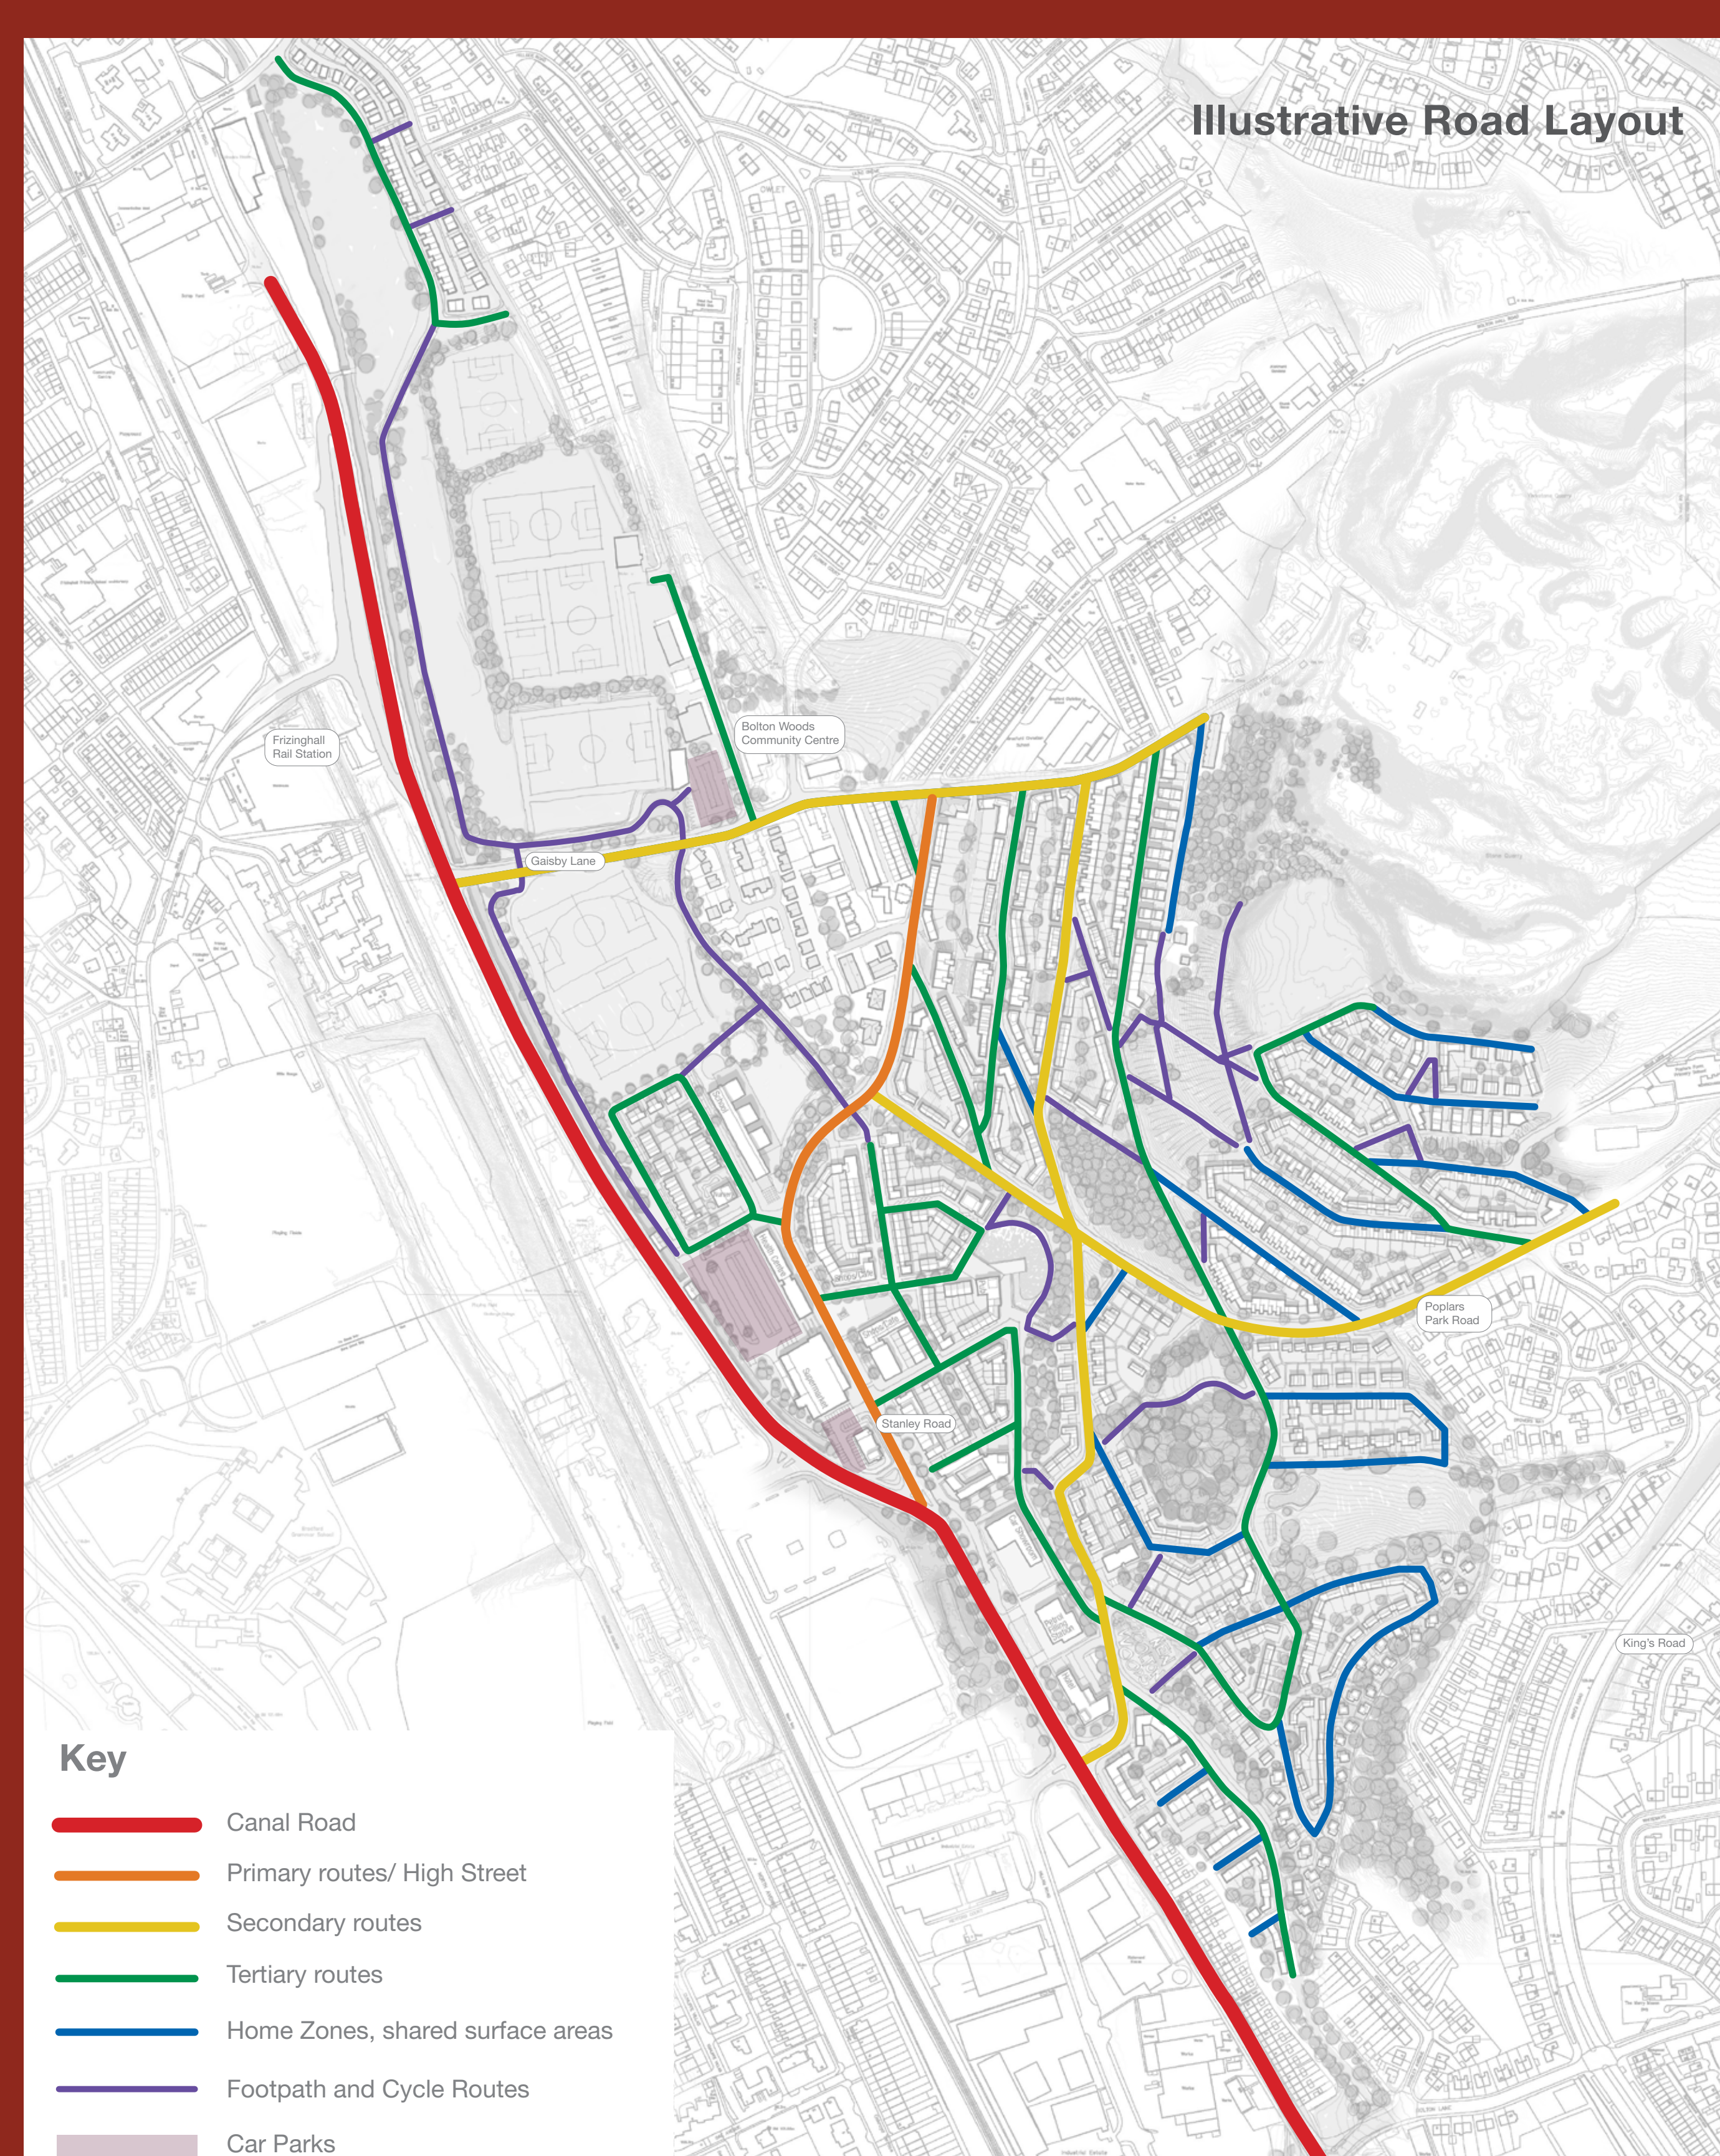

The proposals include a new Local Centre. This will include a medium-sized supermarket, a range of smaller shops, a cafe and a pub. The focus for the local centre is a pond nestled into the landscape.

“A restaurant or pub area that was surrounded by green areas would be nice.”

“More localised shopping choice would be better.”

## NEW ROAD NETWORK

This plan shows the hierarchy of the roads, home-zones and cycle paths. The hillside is very steep but we have tried to achieve an accessible gradient where possible. There will of course be some stepped footpaths, which will add to the area's character.

“Safe areas that are away from busy streets.”

“Streets could be one side footpath, one side lawn or garden and be maintained by the home owners.”

**NEXT STEPS:** Please make any comments you have about the scheme on one of the New Bolton Woods postcards and deposit it in the comments box before you leave or freepost to URBED. The proposals are available to view on the website: [www.newboltonwoods.com](http://www.newboltonwoods.com). The outline planning application will be submitted to the Council in Summer 2013.
